

Aldershot Landscape Contractors Limited

August 19, 1998

TO: Ride-On Technologies

**ATTN.: Gary Elliott
Derrick McAdoo**

Aldershot Landscape Contractors Limited services all areas of southern Ontario. We experienced problems with flat tires, caused by terrain and road use. As customer service is our prime concern, we cannot afford to have our equipment out of service for even a short period of time.

We were approached by Ride-On Technologies to try a new Tire Protection System, which prevents flat tires and we took the time to see if there was an honest alternative to our problems, that actually works.

Ride-On was installed into a truck, six holes are currently in a tire. As to this day, four weeks have passed and we have not lost one pound of pressure.

We have found a great product that we are very pleased with. Thanks Ride-On!!

Yours truly,

Will Newell / Head Mechanic

Dave Pereira / Mechanic
